

## Choosing Portable Technology

### Greetings!

Each month, we try to cover topics that affect your business. In many of our clients, we are part of their strategic team and assist them in addressing business issues while utilizing technology.

BYOD continues to be a hot topic and a subset of that is always what devices should we be using. The bottom line is...it depends. I've put together a couple of viewpoints in this newsletter for you to consider and to assist you in thinking about how you now use portable technology and how you

would use it in the future.

Then, let's have a discussion about what is best for you!

## 5 Reasons the Surface Pro 4 is a Fit For The Enterprise

By Sarah K. White, CIO Magazine

Many manufacturers have been vying for the title, "best enterprise hybrid tablet" since the release of the Apple iPad Pro and Samsung TabPro S. However, none have managed to live up to the Surface Pro 4, which was quickly hailed as one of the fastest adopted enterprise tablets soon after its release, and it recently surpassed the Apple iPad Pro for

### Buying a Laptop

Buying a laptop is a task you will probably do often in your life. You may need one for work and must operate within some corporate requirements for manufacturer or budgets, or purchase one for personal use or as a gift for a family member. It is important to have a good approach to selecting and buying a laptop to get the most value out of it. We cover some important aspects of this here.

First, it's not so much the cost of the laptop, mostly these have become commodity items and they all look the same while sitting on the shelf. It's the experience you have after you open it up and use it. The difference of a few hundred dollars will soon be

sales in the U.K.

It's popularity is no accident Microsoft has spent years tirelessly improving its hybrid offerings, and that work has resulted in an ideal hybrid enterprise device. Microsoft's Surface Pro 4 has a lot going for it in the corporate world, and it and become a great option for any IT department looking to transition to a hybrid tablet device. If you're thinking of getting a Surface Pro 4 for business, here are the top five features of the Surface Pro 4. [Read More](#)

## FREE ASSESSMENT

Not really sure how secure your data is? You've heard all the talk, but really are not sure where to begin? We are willing to help you with that first step.

Every client is as different as their needs. We do not offer a "one solution fits all". We want to discuss your future business goals and your current needs. We want to assist you in getting on the right technology roadmap for your company.

For the next 30 days, we are offering this assessment to you for free. We have a limited number of time slots available, so please don't wait. SECURE your spot now!

Named 'Keystone' after the stone within an arch that holds the structure together, we're founded on the principle that it's our job to serve as the glue that holds critical business processes and support mechanisms in place, securing reliable, effective results.

I would enjoy the opportunity to discuss your IT business needs and how we might be able to assist your company!

forgotten if it is a great performer.

The first thing you should consider is this is a device you will spend a lot of time using. And sometimes we forget this is a "PC", which means "personal computer".

This means you are the primary and usually sole user of the laptop, and it needs to work for you personally, and your lifestyle.... [Read More](#)

We understand the critical role that our service desk team has in the success of your IT initiatives. With that understanding, we have identified inherent and natural talents that are critical within our engineers to be a part of the team. And we utilize the "Strengths Finder" digital assessment to test for those strengths!

Today, meet Scott Roberts. His strengths are Strategic, Achiever, Ideation, Futuristic, and Individualization. Scott has been with Keystone for over 3 years now and is assigned to the service desk team. [Read More](#)
